

February 2019

Dear Parent/Guardian,

The Oklahoma Department of Education is releasing student test scores in two formats this year: a paper report and an electronic report. To access the digital scores, you will need to log onto the Oklahoma School Testing Program (OSTP) Parent Portal. The login requires you enter your student's birthdate and state testing number. This number is located on the paper copy you received from the school, and is labeled "State ID Number".

Below you will find a few resources to help you access your student's scores through the online Parent Portal.

In the future, the state will no longer be releasing paper copies of student test scores. Due to this, it is important that you create a login for your student on the OSTP Parent Portal. Please note that only one login per student is allowed. This control is set by the OSTP Parent Portal, and is not a decision made by Putnam City Schools.

Please contact your school if you have any questions regarding how to access the OSTP Parent Portal.
